Dear Ms. Haaker:

Attached is a report from the Illinois State Archaeological Survey concerning the results of survey of the 129 acre project area referenced above. No archaeological, architectural, or historic sites were identified within the proposed project rights-of way.

In accordance with the established procedure for coordination of proposed Illinois Department of Transportation projects, we request the concurrence of the State Historic Preservation Officer in our determination that no historic properties, subject to protection under Section 106 of the National Historic Preservation Act of 1966 as amended, will be affected by the proposed construction activities.

Very truly yours,

Dear Dr. Leibowitz:

Enclosed are copies the Phase I Survey Report completed by Illinois State Archaeological Survey personnel concerning historical and archaeological resources potentially impacted by the above referenced project. Survey of the 168-acre project area resulted in the identification of no archaeological sites, as did an earlier survey (see attached SHPO concur letter dated November 5, 2010). Potential impacts to architectural resources are currently being assessed in coordination with your office.

In coordination with the Federal Highway Administration (FHWA), IDOT requests the concurrence of the State Historic Preservation Officer in our determination that no archaeological properties subject to protection under Section 106 of the National Historic Preservation Act of 1966 will be affected by the proposed project. In accordance with 36 CFR Part 800.3(c)(4), the FHWA will proceed to the next step in the Section 106 process if we do not receive a response from your office within 30 days.

Sincerely,

Brad H. Koldehoff, RPA

FEDERAL - Section 106 Project

NO ARCHAEOLOGICAL PROPERTIES AFFECTED

Dr. Rachel Leibowitz
Deputy State Historic Preservation Officer
Illinois Historic Preservation Agency
1 Old State Capitol Plaza
Springfield, Illinois 62701

Dear Dr. Leibowitz:

In continuing consultation with your office, enclosed are copies of the Phase I Survey Report completed by Illinois State Archaeological Survey personnel concerning archaeological resources potentially impacted by the above referenced project. Survey of the Area of Potential Effect (APE) for archaeological resources, which encompasses the existing ROW and areas of proposed new ROW and easement, resulted in the identification of no archaeological sites. Potential impacts to architectural resources are being coordinating with your office separately.

In coordination with the Federal Highway Administration (FHWA), we request the concurrence of the State Historic Preservation Officer in our determination that no archaeological properties subject to protection under Section 106 of the National Historic Preservation Act of 1966 will be affected by the project.

If SHPO does not object to the "no archaeological properties affected" finding within 30 days, FHWA's responsibilities under section 106 for archaeological resources is fulfilled (36 CFR 800.4(d)(1)(i)).

Sincerely,

Brad H. Koldehoff
